

Work Experience

Fish n' Brews, Newfoundland

September 2018 - Present

Associate Project Engineer Co-op Student

- Carrying out a prefeasibility study for an anaerobic digestion facility
- Co-designing company website

Empire Electronics, Honduras

February 2018 – April 2018

Associate Maintenance Engineer Co-op Student

- Assisted in the designing of maintenance strategies, procedures and methods which reduced assembly line down-time to 3% and scrap production to 1%
- Carried out routine scheduled maintenance work and responded to equipment faults
- Diagnosed breakdown problems through the collection and analysis of on-site data

Sula Valley Biogas, Honduras

February 2017 – April 2017

Associate Planning Engineer Co-op Student

- Assisted in the planning, budgeting and decision-making process of the largest biogas energy company in Central America
- Interpreted data from SCADA systems to create weekly graphs and reports pertinent to energy production and biomass consumption for the use of upper management
- Wrote the first plant operations handbook after becoming familiar with the production process

Research

1) Ammar Musbah Saleh Ahmed, **Kovasky Buezo**, Noori Saady, "Adapting anaerobic consortium to pure and complex lignocellulose substrates at low temperature: Kinetics evaluation," International Journal of Recycling of Organic Waste in Agriculture, 2018, under review.

Projects

- Developing an Intel 8080 emulator with modern C++ and SDL2
- Developed a Chip-8 interpreter with modern C++ and SDL2
- You can see more at kovasky.me or github.com/kovasky

Education

Memorial University of Newfoundland

September 2015 – May 2021 (Expected)

Bachelor of Engineering Co-op, Computer
